BERNARD PARISH GOVERNMENT COMPLEX, 8201 WEST JUDGE PEREZ DRIVE, CHALMETTE, LOUISIANA ON TUESDAY, FEBRUARY 23, 2010 AT THREE THIRTY P.M.

On motion of Mr. Auderer, seconded by Mr. Cavnac, it was moved to **adopt** the following resolution:

## **RESOLUTION SBPC #614-02-10**

A RESOLUTION STATING WHAT ST. BERNARD PARISH'S POSITION IS IN REGARDS TO THE FLORIDA AVENUE BRIDGE PROJECT.

WHEREAS, pursuant to the requirements of Article VII, Sec. 27 of the Louisiana Constitution of 1974, Act 16 of the First Extraordinary Session of the 1989 Legislature created the Transportation Infrastructure Model for Economic Development program (LSA-R.S. 47:820.2); and

WHEREAS, the TIMED program identifies sixteen projects to be constructed using funds generated by taxes levied pursuant to Art. VII, Sec. 27, Transportation Trust Fund, (TTF) and LSA-R.S. 47:820.1, to be administered through the TTF by the DOTD, and

WHEREAS, the DOTD has embarked on a Program Management approach intended to accelerate implementation and completion of all TIMED projects prior to the end of year 2010; and

WHEREAS, after over some 60 years of visioning, discussion, planning, and legislating, the Florida Avenue Bridge Project reached a status of final design, community consensus, and environmental clearance as well as an identified funding source; and

WHEREAS, it is recognized that the Florida Avenue Bridge project has substantially risen in estimated costs for construction; and

WHEREAS, St. Bernard Parish Government has been requested to examine the option to redesign the Florida Avenue Bridge as a low level or mid-level bridge to accommodate funding shortfalls; and

WHEREAS, St. Bernard Parish Government desires to be cooperative with the Louisiana DOTD while at the same time believes that said project, as it was constitutionally mandated, is deserving of all resources available; and

WHEREAS, the time verses money concern is recognized as a significant obstacle to moving said project from design to construction; and

WHEREAS, it is believed that a redesign of the project nullifies all environmental clearances, community consensus, and further delays the identification of an already insufficient funding source.

NOW THEREFORE BE IT RESOLVED by the St. Bernard Parish Council, the governing authority of the Parish of St. Bernard, State of Louisiana, in concurrence with the St. Bernard Parish President to formally request the Louisiana Department of Transportation and Development continue to develop options to support the construction of high-rise, fixed bridge as part of the completion of the Florida Avenue Bridge project in its design format that has said bridge beginning at Poland/Alvar St. in New Orleans, LA and terminating at Paris Rd. in St. Bernard, LA.

BE IT FURTHER RESOLVED that the request by DOTD to consider a redesign to a mid-level bridge be accompanied by an estimate of time delays and increased costs for redesign and construction, including any factor of escalation over time.

BE IT FURTHER RESOLVED that St. Bernard Parish shall entertain any and all proposals presented by DOTD within the scope of this resolution and commits to examining additional funding opportunities including but not limited to consideration of a toll road, private-public financing, and unsolicited proposals for design.

## **RESOLUTION SBPC #616-03-10**

A RESOLUTION REQUESTING OUR STATE DELEGATION TO INTRODUCE LEGISLATION TO ESTABLISH A PROFESSIONAL STRIKE NET FISHERY FOR FINFISH.

WHEREAS, the governing authority of ST. Bernard is hereby requesting of the State Delegation to introduce legislation for a Professional Strike Net Fishery for finfish; and,

WHEREAS, the use of nets to harvest finfish in Louisiana, pre-dates statehood; and,

WHEREAS, the use of traditional harvest methods of our natural renewable resources is guaranteed in order to preserve the history, culture, and business of commercial fishing. With the adjustment of mesh size alone, the use of a gillnet is the most selective method of targeting a specific species and size of fish. (Note: Louisiana Department of Wildlife and Fisheries biologists use gill and trammel nets to gather data for research and management. Louisiana Department of Wildlife and Fisheries Biologists testified to this during the committee debates and at the cases challenging the constitutionality of the "Net Ban".) ; and,

WHEREAS, since the net ban went into effect the commercial sector has not reached its allowable quota of any of the managed finfish species; and,

WHEREAS, one of the negative effects of the Net Ban of 1995 was to force traditional net fisherman to move into the crab and oyster sectors causing an over capitalization in those fisheries. The inability to economically harvest native finfish species year round has caused Louisiana products to lose its market share of the finfish business. Local restaurants have been forced to substitute non-native species or remove the item from their menus altogether; and,

WHEREAS, without the ability to target our native inshore and near shore finfish species i.e. black drum, sheepshead, red drum, and trout, the biomass of those species has swelled exponentially having a diverse effect on the shrimp and crab population as well as juvenile trout populations; and,

WHEREAS, according to Louisiana Department of Wildlife and Fisheries 24.6% of red drum diet consist of small blue crab and 6% of it's diet is shrimp. Sheep head and black drum also consume large amount of crab, shrimp, and oysters daily. Since the net ban, large schools of Black drum are devouring acres of small oysters (usually the seeded or bedded areas) this alone has caused traditional oyster farmers to cut back on their bedding and concentrate on harvesting more on the state grounds. Consequently, without nets to keep those species in check, the state is losing the ability to grow and produce more of the valuable marketable species, resulting in yet another negative economic ripple effect loss throughout our coastal communities. Studies completed by the Louisiana Department of Wildlife and Fisheries over ten years ago indicated that the biomass of red drum should be reduced by at least 2 million more pounds annually. At that time the recreational sector (controlling the legislature and commission) stated they would rather not increase their daily allowable catch if doing so would mean the commercial sector would get an annual quota again; and,

NOW THEREFORE BE IT RESOLVED, for the biological and economic reasons before mentioned we respectfully request your support for our legislation to establish a Professional Strike Net Fishery for finfish.

### **RESOLUTION SBPC #617-03-10**

A RESOLUTION REQUESTING OUR STATE DELEGATION TO INVESTIGATE THE POSITIVE AND NEGATIVE IMPACTS ON FISHERIES AND BUSINESSES AFFECTED BY THE CLOSURE OF THE MRGO.

WHEREAS, the closure structure in the MRGO has brought many benefits to our area. However, the structure has hurt many commercial fishermen and businesses in the area near the structure, and;

WHEREAS, without an alternate waterway to accommodate the number and size of boats that travel near the structure, mariners, commercial fishermen and commercial interests are now crowded into narrow, shallow waterways resulting in dangerous conditions, hardships and loss of employment, and;

WHEREAS, the structure has created a low oxygen or dead zone on the south side of the structure in the MRGO and has retarded the outgoing flow of flood waters in the vicinity of Ysclosky and Shell Beach causing subsidence from Hurricane Ida and has caused erosion of the wetlands near the closure and in particular at the four corners (the intersection of Bayou La Loutre and Bayou St. Malo).

THEREFORE IT BE RESOLVED, St. Bernard Parish Government request the Parish Legislative Delegation and the State of Louisiana to find an alternate safe water route for the commercial fishermen and other vessels and to also assist finding solutions for the other problems associated with the closure structure without and not altering the closure structure itself in anyway.

## **RESOLUTION SBPC #640-05-10**

A RESOLUTION BY THE GOVERNING AUTHORITY, THE ST. BERNARD PARISH COUNCIL, ENDORSING THE ESTABLISHMENT OF THE EAST BILOXI MARSHES SHORELINE BARRIER ZONE IN CONJUNCTION WITH THE PARISH PRESIDENT AND THE COASTAL ADVISORY COMMITTEE.

WHEREAS, the great Biloxi Marshes of St. Bernard Parish constitute one of the largest contiguous tidal estuary areas in the northern Gulf of Mexico region whose bounty is harvested by fishermen from Louisiana, Mississippi, and Alabama and is an indispensable part of the fishing industry and cultural heritage of the region and they also serve as a platform for extraction of oil and gas important to the nation; and,

WHEREAS, because of their strategic location the Biloxi Marshes collectively serve as a barrier island that buffers destructive storm surge and protects inland developed areas along the coast of Louisiana and Mississippi including the Greater New Orleans area, Mandeville, Slidell, Bay St. Louis, Pass Christian and Gulfport; and,

WHEREAS, barrier islands have been identified as the first line of defense that both reduce tropical storm surge and retard erosion along Louisiana's muddy shorelines and thereby reduce wetland loss; and,

WHEREAS, the Chandeleur Island chain, lying east of the Biloxi Marshes historically was the first line of defense to much of southeast Louisiana and adjacent areas of Mississippi providing surge protection, reduction of shoreline erosion forces as well as estuarine influences that resulted in highly productive oyster habitat and formation of reefs that further added to overall protection, and,

WHEREAS, the U.S. Geological Survey (USGS) estimates that the Chandeleur Islands may convert to shoals within 25 years without additional sediment input and neither the State of Louisiana nor the Corps of Engineers has included restoration of the Chandeleur Islands in their respective coastal project budgets; and,

WHEREAS, the harmful consequences of the significant reduction in size of the Chandeleur Islands upon the soft muddy shoreline of the Biloxi Marshes are already apparent and such loss as predicted by the USGS will lead inevitably to rapidly expanding open bays and inner marsh loss that threatens the existence of the Biloxi Marshes; and,

WHEREAS, all Louisiana coastal barrier islands west of the Mississippi have been or will be restored or nourished by the Coastal Protection and Restoration Authority, the residents of southeast Louisiana parishes including St. Bernard, Orleans, St. Tammany, Jefferson and upper Plaquemines east of the Mississippi have received no such protection and investment in barrier protection as regards the Chandeleur Islands or other barrier projects, and,

WHEREAS, Louisiana's Comprehensive Master Plan for a Sustainable Coast (Coastal Protection and Restoration Authority of Louisiana, 2007), the U. S. Army Corps of Engineers draft Louisiana Coastal Protection and Restoration Plan (U.S. Army Corps of Engineers, 2009), and President Barack Obama's Roadmap for Restoring Ecosystem Resiliency and Sustainability Louisiana-Mississippi (Gulf Coast Ecosystem Restoration Working Group, 2010) have all adopted the coastal lines of defense strategy to protect coastal Louisiana from storm surge and shoreline protection for the Biloxi Marshes has been identified as a goal in Louisiana's Master Plan; and,

WHEREAS, sustaining the Biloxi Marshes is critical to the safety, economy, culture and the survival of St. Bernard Parish; and,

WHEREAS, the Biloxi Marshes barrier zone and barrier technology have been endorsed by the St. Bernard Parish Coastal Zone Advisory Committee.

WHEREAS, after this resolution was originally approved by the St. Bernard Parish Coastal Zone Advisory Committee the alignment of the proposed East Biloxi Marshes Shoreline Barrier became the scene of intensive emergency deployment of temporary oil booms to protect the Biloxi Marshes from detrimental effects of the April 20, 2010 British Petroleum Oil Spill, thus further emphasizing the need for the barrier.

NOW THEREFORE BE IT RESOLVED, That this Council, the governing authority does hereby endorse the establishment of The East Biloxi Marshes Shoreline Barrier Zone, which will consist of a coastal barrier zone extending around the eastern perimeter of the Biloxi Marshes from Isle Aux Pitre to Mozambique Point and encompassing Bay Boudreau, Drum Bay, Morgan Harbor, Eloi Bay, Lake La Fortuna and interconnected smaller lakes and fringing wetlands in conjunction with the Parish President and the Coastal Zone Advisory Committee.

SECTION I. That the Council supports the installation of a segmented barrier as the outer protection element of the barrier zone and of appropriate low energy environments protection leeward of the barrier for back-barrier buildup of shells, trapping of sediment, near-shore protection of the soft shoreline, and habitat enhancement.

SECTION II. That President Obama's Gulf Coast Ecosystem Restoration Working Group consider The East Biloxi Marshes Coastal Barrier Zone as a critical element in the vision for Louisiana-Mississippi coastal ecosystem restoration and that it be given consideration for immediate near-term action.

SECTION III. That the Louisiana Office of Coastal Protection and Restoration and the U. S. Army Corps of Engineers are requested to support expedited evaluation and implementation of The East Biloxi Marshes Shoreline Barrier Zone, including the placement of cost-effective barrier units in the outer protection zone and creation of large-scale oyster reefs (respective of current leaseholders rights) to improve storm surge reduction and for potential economic value to the region.

SECTION IV. That the Council of St. Bernard Parish supports the inclusion of The East Biloxi Marshes Shoreline Barrier Zone in the MRGO Ecosystem Restoration Plan.

A RESOLUTION TO LOUISIANA STATE OFFICIALS STATING ST. BERNARD'S POSITION ON REDISTRICTING OF THE HOUSE AND SENATE SEATS.

WHEREAS, this resolution is in regards to the upcoming redistricting of the House and Senate seats in the State of Louisiana, and;

**LOUISIANA COMPLIANCE QUESTIONNAIRE**  
**(For Audit Engagements)**

Dear Chief Executive Officer:

Attached is the Louisiana Compliance Questionnaire that is to be completed by you or your staff. This questionnaire is a required part of a financial audit of Louisiana state and local government and quasi-public agencies. Upon completion, the questionnaire must be presented to and adopted by the governing body, if any, of your organization by means of a formal resolution in an open meeting. Independently elected officials should sign the document, in lieu of such a resolution.

The completed questionnaire and a copy of the adoption instrument, if appropriate, must be given to the auditor at the beginning of the audit. The auditor will, during the course of his regular audit, test the accuracy of the responses in the questionnaire. It is not necessary to return the questionnaire to my office.

Certain portions of the questionnaire may not be applicable to your organization, especially those related to federal financial assistance, the requirements of the *Single Audit Act*, and OMB Circular A-133. In such cases, it is appropriate to mark the representation "not applicable." However, you must respond to each applicable representation. A 'yes' answer indicates that you have complied with the applicable law or regulation. A 'no' answer to any representation indicates a possible violation of law or regulation and, as such, should be fully explained. These matters will be reviewed by the auditor during the course of his examination. Please feel free to attach a further explanation of any representation.

Your cooperation in this matter will be greatly appreciated.

Sincerely,

Legislative Auditor

EXTRACT OF THE OFFICIAL PROCEEDINGS OF THE COUNCIL OF THE PARISH OF ST. BERNARD, STATE OF LOUISIANA, TAKEN AT A REGULAR MEETING HELD IN THE COUNCIL CHAMBERS OF THE ST. BERNARD PARISH GOVERNMENT COMPLEX, 8201 WEST JUDGE PEREZ DRIVE, CHALMETTE, LOUISIANA ON TUESDAY, JUNE 15, 2010 AT ONE O'CLOCK P.M.

On motion of Mr. Lauga, seconded by Mr. Auderer, it was moved to **adopt** the following resolution:

## **RESOLUTION SBPC #655-06-10**

A RESOLUTION REQUESTING THE UNITED STATE ARMY CORPS OF ENGINEERS TO ISSUE THE EMERGENCY PERMIT NECESSARY TO ALLOW THE IMMEDIATE CONSTRUCTION OF SAND BARRIERS TO PROTECT THE SHORELINES, WETLANDS, AND COASTAL COMMUNITIES OF SOUTH LOUISIANA FROM FURTHER IMPACT RESULTING FROM THE DEVASTATING IMPACTS OF THE DEEPWATER HORIZON CATASTROPHE.

WHEREAS, on May 11, 2010, Louisiana Governor Bobby Jindal submitted an emergency authorization request to the United States Army Corps of Engineers and to the United States Coast Guard to allow the state to immediately begin construction offshore sand barriers as part of the State's Incident Action Plan to protect the state's shoreline and marshes from further devastating effects resulting from the Deepwater Horizon Catastrophe of April 20, 2010 and the subsequent Gulf of Mexico oil spill; and,

WHEREAS, heavy oil is now reported to have reached and affected long stretches of the shoreline of Southeast Louisiana, contaminating beaches and inundating marshes, impacting many communities whose economies and livelihoods are dependent on the fishing, recreational, and natural bounty of our coast; and,

WHEREAS, the natural hurricane protection provided by the ecologically sensitive coastal wetlands and marshes of Southeast Louisiana is now in danger of being severely compromised due to oil contamination; and,

WHEREAS, the State of Louisiana must act immediately to protect the wetlands and coastlines that are home to over 400 species of wildlife and provide the nation with more than a quarter of the lower 48 states' fisheries, many of which are already negatively impacted by contamination from the Gulf of Mexico oil spill and are in danger of long term destruction if emergency measures are not taken.

On a Joint Motion of the council, and without objection, it was moved to **adopt** the following resolution.

## **RESOLUTION SBPC #656-06-10**

A RESOLUTION URGING PRESIDENT OBAMA TO REDUCE THE SIX-MONTH MORATORIUM ON DEEP-WATER DRILLING IN THE GULF TO NO MORE THAN THIRTY (30) DAYS, AND DURING THAT TIME TASK MINERALS MANAGEMENT SERVICE (MMS) WITH CONDUCTING THOROUGH INSPECTIONS OF ALL DEEP-WATER DRILLING FACILITIES IN THE GULF AS WELL AS IMPLEMENT STRICT SAFETY MEASURES AND TAKE ENFORCEMENT ACTIONS TO ENSURE COMPLIANCE WITH SAFETY MANDATES, THUS GREATLY REDUCING THE JOB LOSS AND NEGATIVE ECONOMIC IMPACT FELT BY OUR REGION WHILE ENSURING A SAFER INDUSTRY.

WHEREAS, in the aftermath of the British Petroleum (BP) Oil Spill, on May 27, 2010, the Obama Administration ordered a six month moratorium on existing Gulf of Mexico deep-water drilling, which will result in the immediate suspension of operations at thirty-three (33) rigs in the Gulf of Mexico; and

WHEREAS, the moratorium on offshore deep-water drilling will cause significant harm to Louisiana's energy service industry as well as to the many coastal communities already suffering tremendously from the environmental and economic impacts of the BP oil spill; and

WHEREAS, an estimated thirty-three per cent (33%) of the nation's domestic oil comes from the Gulf of Mexico; and

WHEREAS, eighty percent (80%) of the oil and forty-five per cent (45%) of the natural gas coming out of the Gulf of Mexico is from deep-water drilling operations in more than 1,000 feet of water.

WHEREAS, suspension of deep-water drilling operations will result in at least 33 deep-water drilling rigs being idled for six months or longer; and

WHEREAS, Port Fourchon located in Lafourche Parish services ninety per cent (90%) of deep-water operations in the Gulf of Mexico.

WHEREAS, an average of two (2) supply boats work each rig per day with rates of \$15,000 - \$30,000/boat. Suspension of drilling activity will result in a nearly \$1 million loss per day in just supply boat rental income; and

WHEREAS, each drilling rig averages 180-280 employees for each two-week shift, and each job supports four other jobs in our local communities. Thus, the suspension of drilling activity will result in a loss of up to 6,000 jobs in two to three weeks, and more than 20,000 Louisiana jobs over the next 18 months.

WHEREAS, Louisiana coastal communities such as Houma, Morgan City and Lafayette are home to businesses, from welders and divers to caterers and drivers, that support the offshore oil and gas industry, with 1 in 3 jobs being related to the industry; and

WHEREAS, it is estimated that each exploration and production job represents four supporting jobs in and around the region, thus a six-month moratorium will result in the loss of thousands of jobs and millions of dollars in wages; and

WHEREAS, Louisiana coastal communities will begin experiencing severe and irreversible economic impacts within thirty (30) days of the moratorium; and

WHEREAS, idle drilling rigs in the Gulf will likely be contracted overseas for work in other locations such as Africa and Brazil, and may not return to the Gulf of Mexico for several years, greatly extending the BP Oil Spill induced economic crisis for our state; and

WHEREAS, it is unlikely that deep-water work in the Gulf would resume quickly even after the moratorium is lifted, given the time and expense involved in relocating rigs; and

WHEREAS, several of the safety recommendations set forth in the Department of Interior's May 27, 2010 Increased Safety Measures for Energy Development on the Outer Continental Shelf can be implemented immediately within the next thirty (30) days including MMS verification of the safety of the (1) MMS certification of the safety of the BOP stacks, (2) MMS verification of BOP equipment compatibility (3) development and implementation of new inspection procedures and reporting requirements, (4) establishment of new fluid displacement procedures, and (5) verification of compliance with existing regulations and National Safety Alert requirements; and

WHEREAS, other measures set forth in the Department of Interior's May 27, 2010 Increased Safety Measures for Energy Development on the Outer Continental Shelf such as those requiring emergency rule making along with the National Commission on the BP Deep-water Horizon Spill and Offshore Drilling investigation can be conducted simultaneously with the continued operations of offshore deep-water drilling; and

WHEREAS, MMS could, and should, maintain a full-time presence on all ongoing deep-water drilling locations, with a 7-10 day rotation schedule and enforce that strict compliance with API standards be maintained on all equipment used in well construction; and

WHEREAS, any failure in compliance should mandate immediate closure of the offending rig, rather a complete shut down of all deep-water drilling operations which would unjustly punish those companies that have provided this country's energy needs while operating safely and in compliance with all regulations, as well as those coastal communities already facing an economic crisis as a result of this being the most challenging economic periods in decades coupled with the devastating economic impacts of the BP oil spill on the fishing, tourism and ancillary industries; and

WHEREAS, the last thing the Gulf Coast area needs is a public policy that will certainly destroy thousands of existing jobs while preventing the creation of thousands more; and

WHEREAS, a copy of this resolution is to be forwarded to Roland Dartez, Executive Director, of the the Police Jury Association State Executive Board at: [attyrol@aol.com](mailto:attyrol@aol.com) or 707 North 7th Street, BR, LA 70802 with it's passage.

NOW THEREFORE BE IT RESOLVED, that the St. Bernard Parish Council, the Governing Authority, does hereby support the Police Jury Association State Executive Board and joins them in urging President Obama to lift the six-month moratorium on deep-water drilling, and instead conduct a thorough review of all deep-water drilling facilities, implement and enforce strict safety measures to ensure compliance with safety mandates.

BE IT FURTHER RESOLVED, that while we support efforts to make the offshore deep-water drilling industry safer, we urge President Obama to reduce the six-month moratorium on deep-water drilling in the Gulf to no more than thirty (30) days, and during that time task Minerals Management Service (MMS) with conducting thorough inspections of all deep-water drilling facilities in the Gulf as well as implement strict safety measures and take enforcement actions to ensure compliance with safety mandates, thus greatly reducing the job loss and negative economic impact felt by our region while ensuring a safer industry.

## **RESOLUTION SBPC #660-07-10**

A RESOLUTION ENDORSING AND SUPPORTING THE SOUTHEAST LOUISIANA FLOOD PROTECTION-EAST'S ATTACHED LETTER DATED JUNE 8, 2010, AND THE REQUEST TO FUND IMPLEMENTATION OF THE ORLEANS LAND BRIDGE PROJECT (ALLIGATOR BEND PO-34) AND THE BILOXI MARSH - LAKE BORGNE SHORELINE PROJECT (PO-72).

WHEREAS, the Deepwater Horizon drilling rig explosion on April 20, 2010, resulted in the uncontrolled release of tens of millions of gallons of crude oil into the Gulf of Mexico; and,

WHEREAS, the massive oil spill has yet to be fully contained and currently an estimated 45,000 barrels of oil is continuing to escape into the Gulf each day; and,

WHEREAS, the relief wells anticipated to be the long term solution for stopping the flow of oil into the Gulf will not be operational until at least August, 2010; and

WHEREAS, the total quantity of oil that will ultimately be released into the Gulf and that could impact the coast and wetlands of Southeast Louisiana is unknown; and,

WHEREAS, the toxic effects of the contamination from this on-going oil spill and the possible adverse effects of the chemical dispersants used to break up the oil threaten to exacerbate the already serious problem of coastal land loss and ecosystem damage in Southeast Louisiana; and,

WHEREAS, the coast and wetlands provide the first line of defense from hurricanes and tropical storms and any additional loss of coastal lands or damage to the ecosystem could potentially reduce the degree of protection provided by the levees, floodwalls and other features in the hurricane protection system which are designed to function within the existing coastal landscape, and expose the region to a greater threat from storm surge from a hurricane or tropical storm; and

WHEREAS, by letter dated June 8, 2010, the Southeast Louisiana Flood Protection Authority-East requested Captain Edwin N. Stanton, Commander of the United States Coast Guard Sector New Orleans, to fund implementation of the Orleans Land Bridge Project (Alligator Bend PO-34) and the Biloxi Marsh – Lake Borgne Shoreline Project (PO-72) to reduce damage by the spill by providing a rock shoreline barrier to oil that may enter Lake Borgne.

NOW THEREFORE BE IT RESOLVED, that the St. Bernard Parish Council, the Governing Authority, does hereby, endorse and support the Southeast Louisiana Flood Protection-East's letter dated June 8, 2010, and the request to fund implementation of the Orleans Land Bridge Project (Alligator Bend PO-34) and the Biloxi Marsh – Lake Borgne Shoreline Project (PO-72).

## **RESOLUTION SBPC #682-08-10**

A RESOLUTION IN SUPPORT OF AMENDMENT NO. 2 ON THE NOVEMBER 2, 2010 STATEWIDE LOUISIANA ELECTION BALLOT.

WHEREAS, Louisiana Constitution Art. VI § 4 provides that 20% of the total State severance tax on minerals is to be distributed to the parish where the mineral production occurred, and;

WHEREAS, however, the Louisiana Constitution currently places a cap on that distribution in the amount of \$850,000 annually, which cap is to increase at the rate of inflation each year, and;

WHEREAS, the imposition of that cap has resulted in the distribution to the parishes of barely 3% of severance tax revenues, far below the 20% originally envisioned by the Louisiana Constitution, and;

WHEREAS, the Louisiana Legislature, in the 2009 Regular Session, adopted HB 765 which proposes to amend the Louisiana Constitution to increase the cap to \$1,850,000 in the first year of implementation and then \$2,850,000 then to increase the cap by the rate of inflation each year thereafter; should the last official forecast for a fiscal year exceeds that of the actual collection of severance taxes in the year 2008-09, and;

WHEREAS, this increase will bring tens of millions of dollars to parish governments to be used for infrastructure and other purposes, and;

WHEREAS, the proposal is set as Amendment # 2 on the November 2, 2010 statewide election ballot.

## **MEMORANDUM OF UNDERSTANDING**

This Memorandum of Understanding (this "MOU") is entered into this 7th day of December, 2010 by and between the Parish of St. Bernard (hereinafter referred to as "St. Bernard Parish") and St. Charles Community Health Center, Inc. (hereinafter referred to as "STCCHC").

**WHEREAS**, since 2006, the St. Bernard Health Center (STBHC), operated by the Franciscans Missionaries of Our Lady Health System ("FMOL"), has provided essential primary care services to the citizens of St. Bernard Parish, who are predominantly medically underserved as indicated by the entire parish being federally-designated as a Health Professional Shortage Area; and

**WHEREAS**, FMOL has determined that it is not within FMOL's mission to continue to operate STBHC in the future; and

**WHEREAS**, STCCHC a comprehensive, preventative and primary care community health center/federally qualified health center ("CHC/FQHC") network organization with service sites located in St. Charles, Jefferson and St. Tammany parishes, has expressed its desire to assume the operational responsibilities of the STBHC from FMOL and, in connection therewith, is submitting a New Access Point ("NAP") satellite site grant application to the United States Department of Health and Human Services, Health Resources and Services Administration ("HRSA") relative to a new service site in St. Bernard Parish; and

**WHEREAS**, STCCHC and FMOL are in negotiations with respect to the transfer of governance and operation of STBHC, which will involve the development and execution of a Letter of Intent ("LOI") followed by definitive transactional documents; and

**WHEREAS**, St. Bernard Parish has determined that the continuation of services at the STBHC is essential to the well being of parish residents, who are predominantly medically underserved, as STBHC affords the only accessible comprehensive preventative and primary health care in the parish until the new parish hospital is constructed; and

**WHEREAS**, even after the new parish hospital is constructed, the STBHC, under the governance and operation of STCCHC, will continue to provide a broad array of essential comprehensive primary and preventative health care services to parish residents, including those with limited or no insurance regardless of the ability to pay; and

**WHEREAS**, St. Bernard Parish has the capability of facilitating the proposed transfer of STBHC operations from FMOL to STCCHC by making various facilities under its control (land, trailers and St. Bernard Parish owned equipment) available to STCCHC upon completion of this transfer; and

**WHEREAS**, St. Bernard Parish has concluded that facilitating this transition is in the public best interest for the general citizenry of the parish, including those individuals who are medically underserved.

**NOW THEREFORE**, in consideration of the premises and mutual covenants contained herein and other valuable consideration the receipt and sufficiency of which are hereby acknowledged, the parties do hereby agree as follows:

1. In consideration of STCCHC's proposal to assume the governance and operation of the STBHC from FMOL during calendar year 2011, upon receipt of the executed LOI, St.

Bernard Parish will, subject to formal action through adoption of an ordinance, after public hearing and in compliance with all related legal requirements, facilitate STCCHC's access to the land, trailers and St. Bernard Parish controlled equipment now being utilized by the STBHC for the provision of primary care located at 8101 West Judge Perez Drive, Chalmette, Louisiana 70043. Said ordinance shall be effective upon execution of definitive transactional documents transferring governance and operation of STBHC from FMOL to STCCHC.

2. This MOU and all amendments hereto, and the rights of the parties hereunder, shall be governed, construed and enforced in accordance with the laws of the State of Louisiana.
