Resolution SBPC #476-04-09

A RESOLUTION IN OPPOSITION TO THE FEDERAL FY 2010 BUDGET AS IT RELATES TO THE ELIMINATION OF 30 BILLION DOLLARS FROM THE OIL AND GAS INDUSTRY TO FUND ALTERNATIVE ENTERGY PROJECTS AND TO SEND THIS OPPOSITION RESOLUTION TO THE LOUISIANA POLICE JURY ASSOCIATION, ALL LOCAL AND PARISH GOVERNMENTS, AND THE LOCAL FEDERAL AND STATE DELEGATION.

WHEREAS, the FY2010 budget proposes to eliminate tax incentives that have been in place for the oil and gas industry that allows them research and development (exploration and production) dollars; and

WHEREAS, elimination of these dollars will increase gas prices and cause loss of 5.929 million American jobs

1. 1.838 million Americans directly employed in the United States Oil and Gas industry.
2. 4.066 million indirect jobs created by the oil and gas industry.

WHEREAS, the abrupt and dramatic removal of tax incentives currently available to oil and gas exploration and production will result in a significant reduction in domestic energy production; and

WHEREAS, this will result in increased reliance of foreign oil and gas until alternative domestic energy can fill the void, and this drastic decline in domestic production will have an overall all adverse impact on domestic energy production; and

WHEREAS, this Council urges the Federal Government Administration to retain some of the tax break incentives that have been in place for oil and gas producers, but are to be eliminated in the 2010 budget; and

WHEREAS, the Administrations proposed budget for 2010 would strip essential Capital from new American natural gas and oil investment by radically raising taxes through the elimination of tax exemptions on American Production. The FY 10 budget includes the most devastating tax proposals in the history of America's oil and natural gas industry; and

WHEREAS, natural gas and oil provide 65% of America's energy. New wind energy and solar energy require new natural gas turbines to run when the wind doesn't blow and the sun doesn't shine. American natural gas is essential to meeting any clean energy agenda associated with global climate. American natural gas and oil are essential to any energy security plan; and

WHEREAS, oil and gas companies invest a total of 174 billion back into American industry, which represents 97% of the companies net income and invest it in emerging technologies; and

WHEREAS, the fiscal, urban, and rural impact will result 1 trillions of dollars being lost, millions of jobs lost. Our nation's energy security severely threatened and American citizens incurring extremely high gas prices, higher energy bills, increased taxes for those who don't drive energy efficient cars. And other new taxes during a recessed economy; and

WHEREAS, this will affect IRA accounts, individual investors, pension funds, mutual funds, and other asset management companies and other institutional investors along with the oil and gas industry; and

WHEREAS, other energy consumption industries that are affected by this budget are petroleum, coal, and nuclear; and

WHEREAS, due to the above mentioned reasons this Council supports this Resolution in opposition to the federal FY 2010 budget for the Department of Energy, as it relates to the elimination of 30 billion dollars from the oil and gas industry to fund alternative energy sources and to send the opposition Resolution to the Police Jury Association and all Local and Parish Governments, and the Local State and Federal Delegation.

Resolution SBPC #505-07-09

“Exhibit A”

COUNCIL POLICY AND PROCEDURES

COUNCIL AGENDA

POLICY: It is the policy of the St. Bernard Parish Council, that there shall be an organized method for the Assembly, Format, Posting Approval, Posting Procedures and Council Member responsibility with regard to Council Agenda's. The Council Clerk shall be responsible for the compilation of the Agenda with the Council Chair as acting supervisor. In the absence of the Council Chair, the Vice-Chairman of the Council shall act as supervisor. The Clerk of Council may delegate any of the tasks associated with the preparation and posting of the agenda, but shall ultimately be responsible for all facets of the agenda.

PROCEDURES:

ASSEMBLY

1

The Clerk of Council shall at all times maintain a working draft of Council Agenda's.

2

Agenda items must be general enough to allow the public to discern what deliberations will take place, but should be as specific as possible to identify the action that is intended to take place. Ideally, an agenda must be reasonably clear so as to advise the public in general terms each subject to be discussed. The Council Chair or Vice-Chair should supervise the writing of the item, and assist the author of the item with more appropriate wording in order to maintain compliance with the Open Meeting Laws.

- a) The Clerk of Council shall include the author or outside agency requesting the agenda item for any meeting as well as the district in which it refers to.

3

Deadline for placing items on a regular meeting shall be set at 4:00 p.m. on the Wednesday prior to the regularly scheduled Council meeting.

- a) The Chair or Vice-Chair, as appropriate, shall strictly enforce this deadline to all non-council departments, agencies, and outside sources. Discretion to allow agenda additions past the deadline, should be very strictly scrutinized.
- b) The deadline noted in (3) above shall not apply to Councilmen. The Chair or Vice-Chair, as appropriate, shall have discretion in allowing items past the deadline, but prior to posting. This discretion should be applied liberally in order to prevent agenda amendments at the meeting so that the public may properly be advised what will be discussed.

4

Any Council member may place any item on an agenda by submitting this request to the Clerk of Council.

- a) This request shall be made in writing and shall contain the exact wording for the title to be placed on the agenda.
- b) If the item is an ordinance or resolution, the Chair or Vice-Chair of the meeting which the agenda item is requested to be on, may insist that said resolution or ordinance be in writing prior to the item being placed on the agenda, this discretion shall be allowed by the Chair or Vice-Chair, but not as a way to repudiate the right of the member to place an item on the agenda. Further, any councilman may request the written ordinance or resolution from the author in order to properly prepare for the meeting.
- c) Ordinances must be submitted in writing prior to the start of the meeting according to section 2-12 of the Home Rule Charter and should be submitted timely enough for the Clerk of Council to input the ordinance into the system prior to the start of the meeting. If a member successfully moves to amend an ordinance, then that member should co-operate with the Clerk of Council to have that amendment reduced to writing in order to finalize the ordinance. If an ordinance is amended after advertisement, then the chair shall ask for public comment regarding the amendment in order to allow the public an opportunity for input into same.
- d) Resolutions should be submitted in writing timely enough for the Clerk of Council to input the resolution into the system. Timely enough shall be defined as at least 24 hours prior to the scheduled meeting. However, if the resolution is one from public input or from a motion, or germane topic of the meeting, the member who has moved for the motion shall immediately co-operate with the Clerk of Council to have the resolution reduced to writing. Likewise, if a member successfully moves to amend a resolution, then that member should co-operate with the Clerk of Council to have that amendment reduced to writing. If the resolution is one which will not be altered (for example: a street light at a certain pole) then it must be submitted timely enough for the Clerk of Council to input the resolution into the computer system.
- e) The chairman shall not exclude an agenda item request by a council member. The chairman has sole discretion to allow or disallow agenda item request by anyone or any entity who is not a council member.

5

Anyone or any entity (excluding Councilmen) who is submitting an agenda item request must be approved by the Council Chair or Vice-Chair as appropriate.

- a) All non-council member agenda item requests MUST comply with section 3 above.
- b) All non-council member agenda item requests MUST be accompanied by the appropriate paper work in writing BEFORE the item may be placed on the agenda.(Except the Parish President as noted in d) of this section)
- c) The Clerk of Council shall not place any item on the agenda without the applicable paper work first, followed by the approval of the Chair or Vice-Chair as appropriate for the meeting. An electronic transmittal (e-mail, fax) will be allowed and be considered "paperwork".
- d) The Parish President shall not be required to fill out an agenda request for the Parish President's Report. This privilege is a courtesy to the Parish President. The President's Report shall be on the agenda of every regularly scheduled council meeting. The Parish President should forward his report to the council clerk for distribution to all council members at least 24 hours in advance of the regularly scheduled council meeting. Recognizing, the Parish President will enjoy the discretion to add to that report on the day of the meeting if the President is desirous to do so.

RESOLUTION SBPC #521-08-09

A RESOLUTION TO DECLARE ST BERNARD PARISH'S POSITION ON HURRICANE-RELATED SILTATION.

WHEREAS, Hurricanes Katrina, Rita, Gustav and Ike deposited catastrophic volumes of earthen and vegetative debris, as well as other materials in Louisiana waterways, including many in St. Bernard Parish, that are important for drainage, navigation, commerce and recreational purposes, and

WHEREAS, as a consequence of said hurricanes, the pre-storm hydrology of such waterways became impaired, depriving the community of historic drainage, navigational, commercial or recreational uses; and

WHEREAS, FEMA has systematically rejected the eligibility of hurricane-generated earthen and vegetative debris for removal from Louisiana waterways, except in cases supported by records of prior dredging; and

WHEREAS, the USACE should be aware that utilizing borrow pit facilities within the Parish of St. Bernard would not require any significant usage of our highways. There exists borrow facilities within St. Bernard parish where borrow material would be mostly transported off road to the end usage point with a shorter distance to haul than from outside the Parish. There is no present need to create permit or approve any additional borrow facilities given the present needs for borrow material required by the USACE with T wall construction; and,

WHEREAS, the USACE would not have to delay the construction of the HSDRRS and would continue its efforts without said delay; and,

WHEREAS, St. Bernard Parish Government would further request that the USACE would ask the facility site supplying the material to post bond for the highway and streets if damaged by the hauling of dirt from LA 46 to the Federal Levee turnoff in Verret; and,

WHEREAS, St. Bernard Parish Government would also ask the USACE to work with the Louisiana Department of Transportation and Development to keep the commitment to reduce traffic and save the infrastructure of St. Bernard Parish; and,

THEREFORE BE IT RESOLVED, That the Corps of Engineers take the necessary actions to continue with the upgrade of the levee protection system including using the earthen material already available to the USACE wherein there will be no need to haul said material throughout the entire parish, rather from the pits in use now, straight to the end user point of the levee system. This will reduce the potential traffic problems as well as wear and tear on our highway system which we have spent millions of dollars in repair and are still trying to keep up with repairs. This will also allow St. Bernard Parish to continue receiving the tax benefit of all such product sold in St. Bernard Parish.

BE IT FURTHER RESOLVED, that the DOTD of the State of Louisiana also assist St. Bernard Parish in presenting this request to the USACE in an attempt to preserve the highways system of St. Bernard Parish.
