Re: Public Comment on Oyster Lease Acquisition Compensation Amendment

Dear Mr. Ellis:

St. Bernard Parish Government supports the position of the Louisiana Oyster Dealers & Growers Association, Louisiana Oyster Task Force, and hundreds of oyster harvesters in St. Bernard Parish regarding the subject amendment. We are particularly concerned about the *harvest efficiency ratio*, which is defined in the amendment as follows:

The ratio used to determine the amount of marketable oysters capable of being harvested on affected acreage acquired pursuant to R.S. 56:432.1. The harvest efficiency ratio shall be 70 percent of the marketable oysters on the affected acreage.

It is our position that the harvest efficiency ratio should be set at no less than 95%.

Additionally, we are concerned about the exclusive use of *marketable* ("sack") oysters in lease evaluations. Since oyster harvesters invest a significant amount of material and labor into cultivating oyster seed and spat, it is our position that these living organisms also be factored into lease evaluations.

Thank you for your time and consideration.

Sincerely,

A handwritten signature in black ink, appearing to read "Kerri Callais".
