### Check Entity Registration Status

#### Page Description

You can quickly check an entity's registration status in SAM by entering a DUNS Number or CAGE Code. The SAM Status Tracker will show you the current status of the entity associated with that DUNS Number or CAGE Code, as well as tell you what steps are left to complete based on why they are registering.

The SAM Status Tracker uses seven circles to represent steps in the registration process: Core Data, Assertions, Reps & Certs, POCs, Submit, Processing, and Active. Visual indicators in the circles, text underneath the circles, a status message in bold above the circles and user messaging combine to give the registration status.

You will only see the registration status for publicly-searchable registration records in the SAM Status Tracker. Federal government users must log into SAM and search for non-public records.
